ABOUT ABV

AGRIBIZ VILLAGE

AgriBiz Village is a pioneering social innovation movement that promotes and supports agricultural entrepreneurship and innovation across Africa.

In response to the urgent need to alleviate poverty and unemployment—particularly among youth, women, and people with disabilities in South Africa—AgriBiz Village fosters an inclusive ecosystem where farmers, entrepreneurs, investors, and experts collaborate to share knowledge, resources, and ideas.

By championing sustainable livelihoods and community-driven solutions, AgriBiz Village is driving economic empowerment in the agricultural sector—empowering every family to become a farmer.

Every family, A Farmer!

AGRIBIZ VILLAGE HUBS

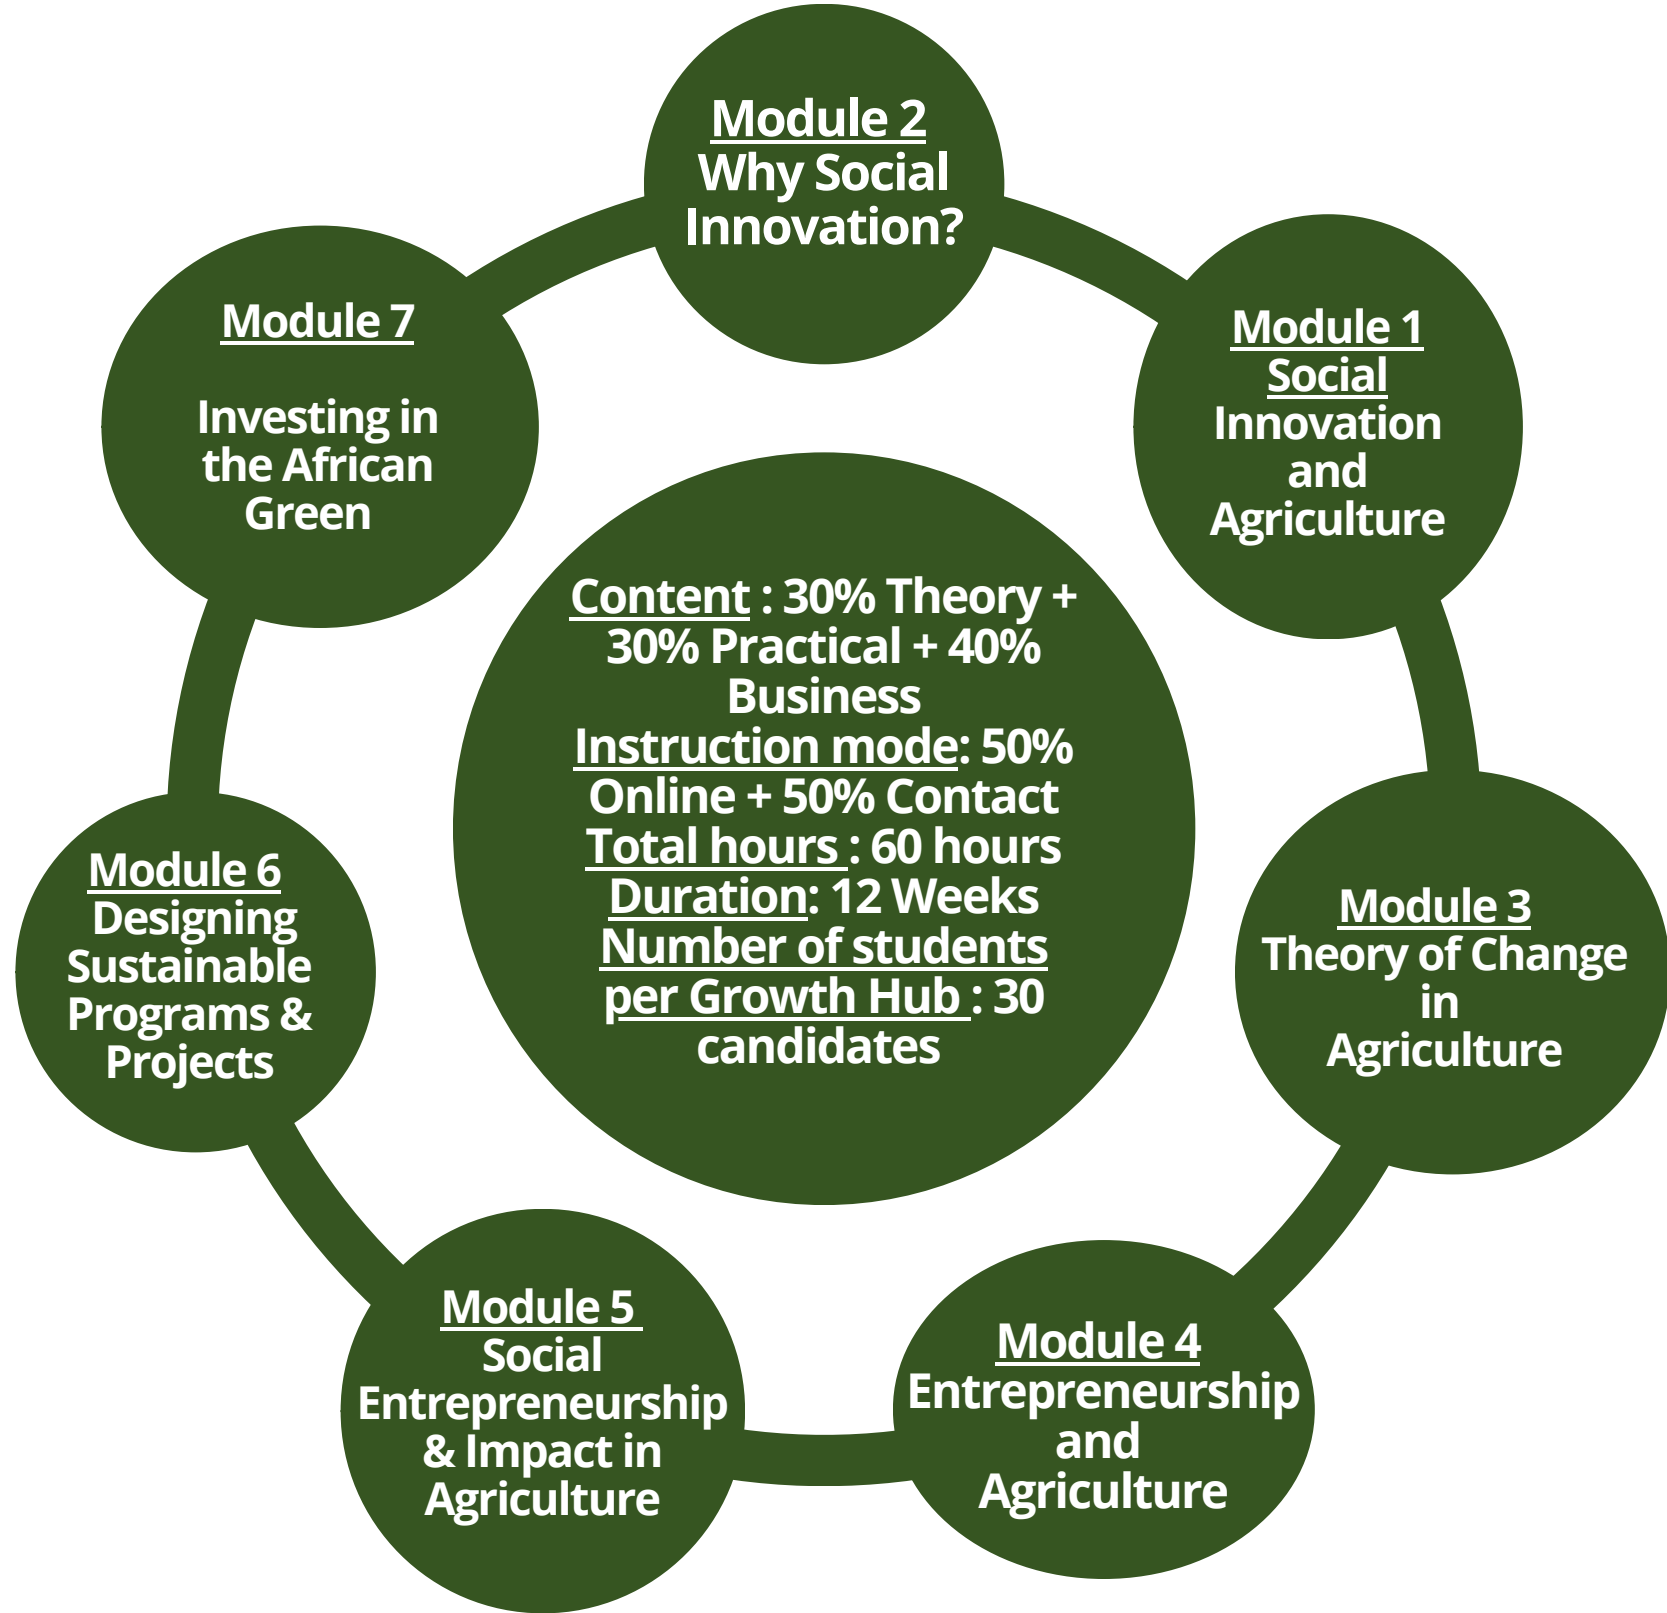

- Our AgriBiz Village Hubs provide platform where young people, women, men and people with disabilities can be given an opportunity to be trained as agripreneurs and work with our partner-farms. This allows them to be mentored, coached and trained in the business of agriculture. We have realised that our education system does not equip people for a life after school or classroom. During these 12 weeks, we ensure that our candidates are fully equipped in all areas of Agriculture.
- We are committed to provide candidates with training in basic farming, business, finance and leadership skills. By the end of our Agripreneur programme, Candidates will be given an opportunity to decide whether they want to join our team and serve in other different roles and capacities within the company or set up their business.

WHAT WILL CANDIDATES BE DOING?

- Meet consistently with a trainer/coach for development
- Spend a minimum of 80 hours a month in a specific project (depending on their particular interest and skill)
- Participate in our “AgriBiz Village International Conferences”
- Serve on AgriBiz Village Team
- Participate in our Agriculture, Sustainability and Climate change conferences & other events
