# AGRIVENTURES AFRICA HUBS

**Our Agriventure Agripreneurship Accelerator Programme** is designed to be an Economic Growth Hub where young people, women, men, and people with disabilities are given the opportunity to be trained, mentored, and supported as emerging agripreneurs.

We recognise that the current education system often does not adequately prepare people for life beyond school or the classroom. Over the course of 12 intensive months participants are equipped with practical skills, knowledge, and hands-on experience in agriculture and agribusiness.

Our programme focuses on developing essential **business, finance, and leadership skills**. At the end of the programme, participants will have the opportunity to either:

- Join our team and contribute in various roles within our projects, or
- Launch and run their own agribusiness with the skills, confidence, and network gained.

## Programme Activities

Participants in the Agriventure Agripreneurship Accelerator Programme will:

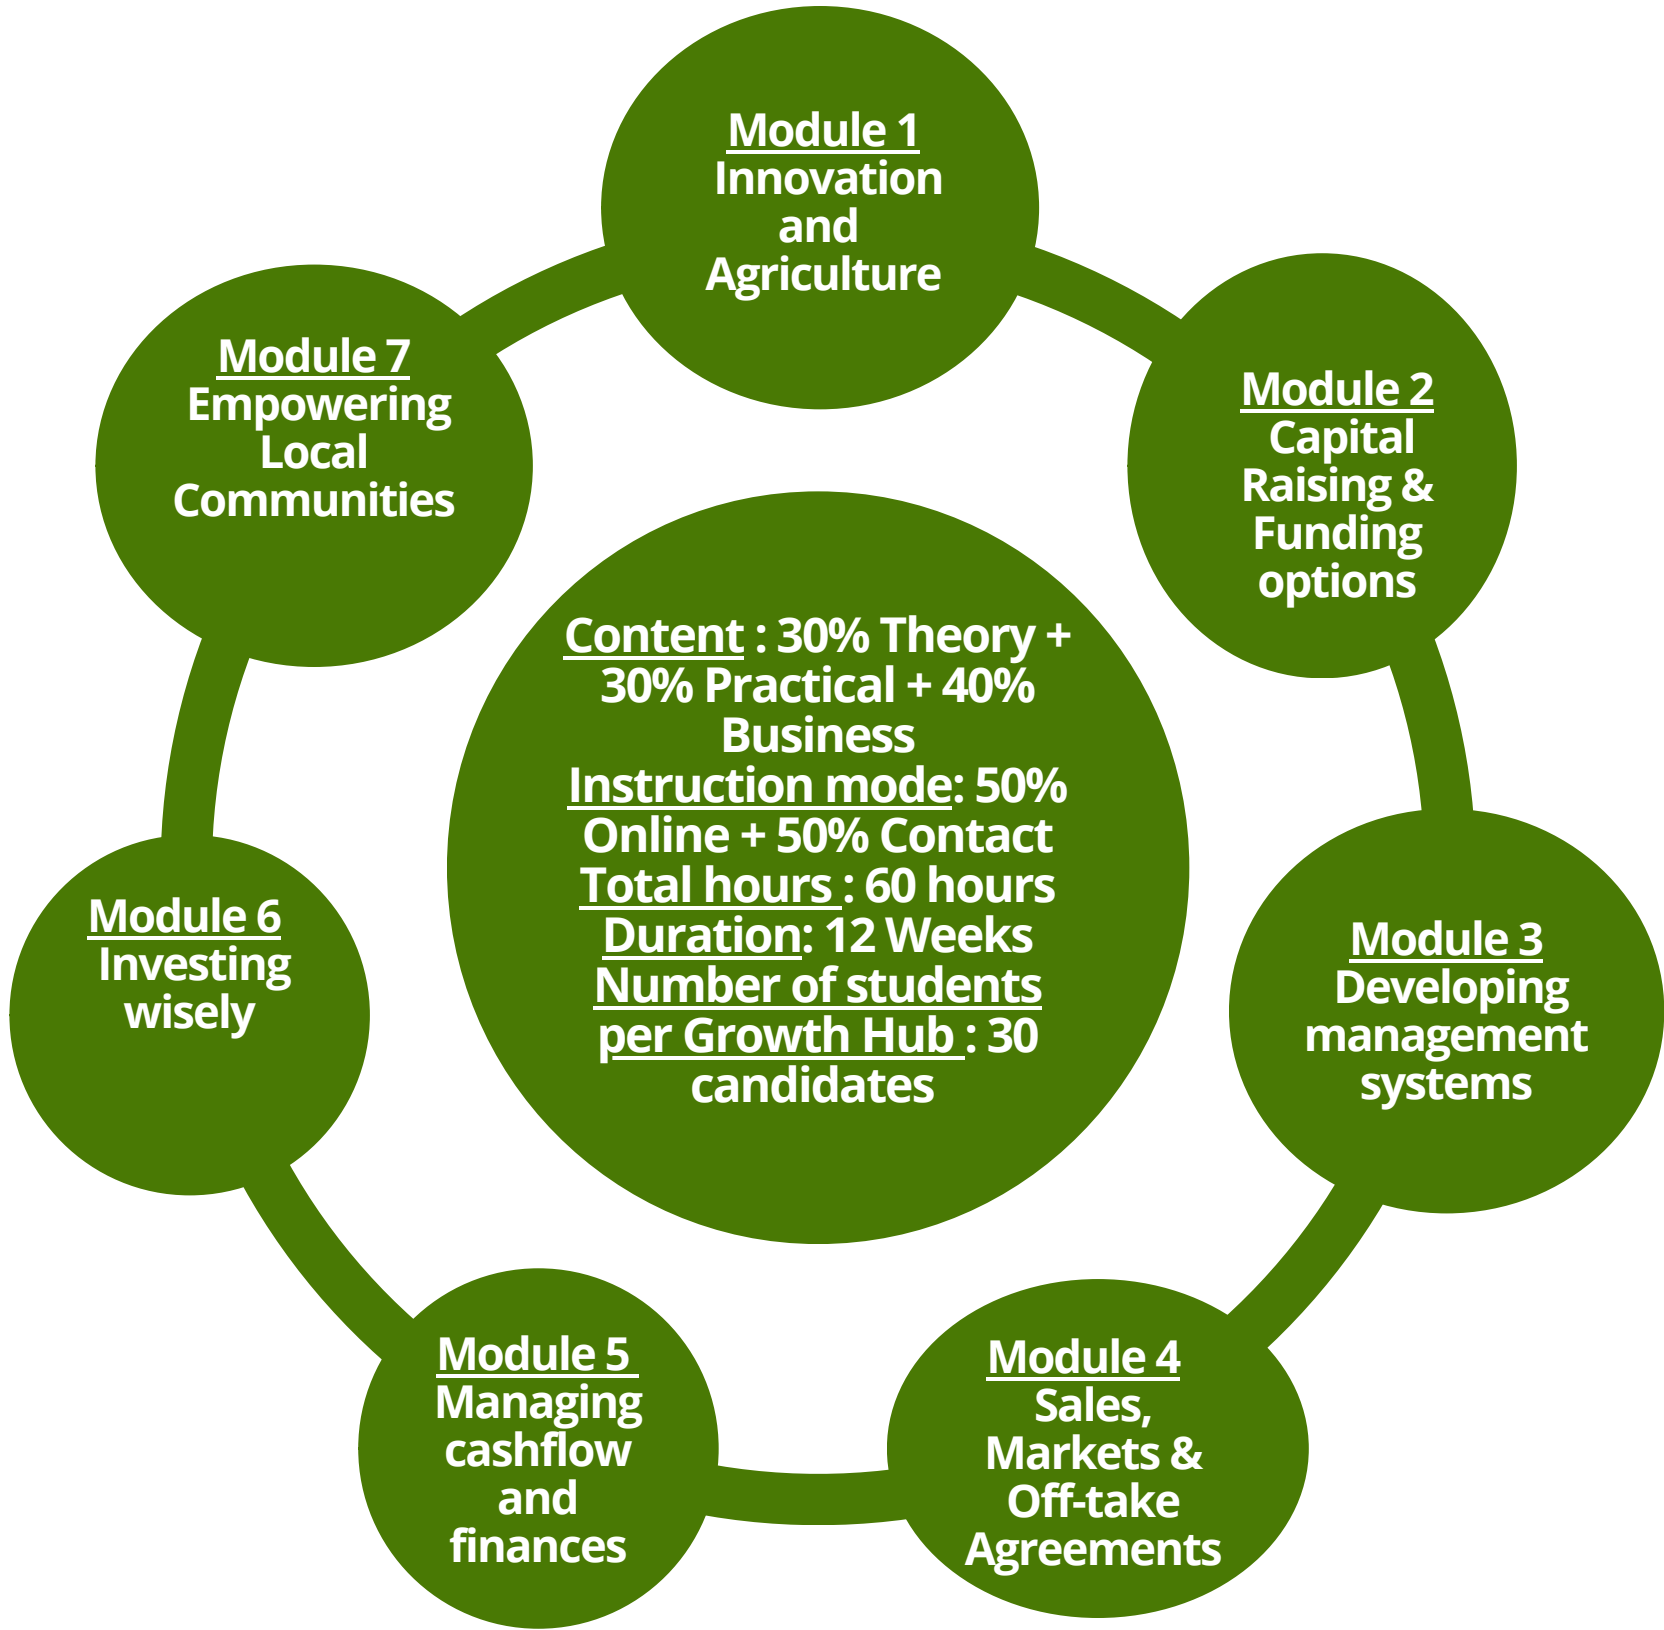

- Meet regularly with a dedicated trainer/coach for personal and professional development.
- Commit a minimum of 100 hours per month to hands-on projects aligned with their skills and interests.
- Participate in our International Conferences.
- Serve in various programme activities and community initiatives.
- Engage in our Wealth Creation, Social Innovation, and Sustainability Conferences and other key events.
